At [Sprawling Buds ICSE School](#), we help children tap into their hidden potential by exposing them to diverse opportunities. The broad based, liberal education also helps them to rise above parochial mindsets and acquire a truly international outlook. In addition to this, children are trained to learn more by doing things themselves and trying out new ideas, taking failure and success in their stride, with all their energies focused on honest and purposeful effort.

We hope and believe that Sprawling Buds ICSE School is going to become a premier institution of its kind in this part of the world, amply fulfilling the educational aspirations of the parents who bring their children to its portals.

Our Vision

Sprawling Buds ICSE School was recognized by Jammu & Kashmir Government & recently got Affiliated to CISCE New Delhi on 7th of April, 2017. Education has always been the one of the most important things that defines a well-developed country. It serves as the foundation for the development of its people's skills and talents that is essential especially in the growth of a nation. It is also one of the most important things that the people of any society should acquire for better functionality. Because of education, people can add their value to their society and will be able to contribute through their specific skills.

“Education does not consist merely in the acquiring of a few facts of science, history, literature, or art, but in the development of character.” It begins with a mother's look, with a father's nod of appreciation, with a sister's gentle pressure of the hand, or a brother's noble act, of meadows with bird's nest admired, with creeping ants, and almost imperceptible elements; with humming bees and glass beehives, with pleasant walks in shady lanes, wallowing in the woods and with thoughts directed in sweet & kindly tones and words of nature, of beauty and acts of benevolence, to the deeds of virtue and to the source of all-to God himself. The pursuit of excellence encouraged rests on the positive belief that every human being has it in them to produce work, the quality of which can be described as EXCELLENT.

We at Sprawling Buds ICSE school aim at providing world class education in an exemplary and disciplined ambience. This dream will be translated to reality by building a Happy School where every child has an opportunity to explore and develop its inherent traits and works on the Four Pillars of education

1. Learning to know
2. Learning to Do
3. Learning to live with others
4. Learning to be Confident

*Our Vision is
to produce Global
leaders.
Every child should be a
success story.*
